**PLEDGE OF ALLEGIANCE TO THE FLAG
OF THE UNITED STATES OF AMERICA**

*“I Pledge Allegiance to the Flag of the United States
of America and to the Republic for which it stands,
one nation under God, indivisible, with liberty and
justice for all.”*

P R E A M B L E

The Utility Workers Union of America , AFLCIO is an organization of members united by the belief in the dignity and worth of workers and by an understanding of the necessity and value of the services we provide to the public for their health and well-being. We are dedicated to improving the lives of our members and their families and to enhancing the quality of life in our communities.

We are an organization of men and women of every race, religion, age, and ethnicity, who are committed to a society where all workers and their families live and work with dignity; where there is an economic and political mandate for a more equitable distribution of the nation’s wealth for all those performing useful service to society; where workers have a collective voice and power at the workplace; where economic well being is achieved for our members and all workers; where work is satisfying and fairly rewarded.

To accomplish these goals, we commit to:

- Bargain contracts that provide for improved wages and working conditions and insure that our collective voices are heard and honored;
- Building a strong and unified union, that also stands firm with other unions;
- Organize the unorganized workers in our industries so that all workers can enjoy the highest possible level of wages, pensions and benefits;
- Stay united and recognize our common ground and goals

and not be divided by forces of discrimination, corporate action or disharmony;

- Participate in our democratic societies and insure that unions maintain a vital and central role in the political, social and economic life of our countries;
- Work for social and economic justice;
- Leave the workplace a better place for our children and our children's children;
- Participate in regulatory, legislative, legal and electoral proceedings to protect the interests of consumers and the public (including our members) in reliable, safe and environmentally sound utilities at affordable, just and reasonable costs.

Compliance with the National Constitution should become the personal interest of every member of our union. Every local union officer should consider the National Constitution in connection with union matters as seriously as the law of the land in daily life. This is the lifeblood of the organization. The body will become strong and powerful or weak and frail in ratio to the importance given these laws.

Section 1. The salaries of the National President, the National Executive Vice President, the National Vice President, and the National Secretary-Treasurer shall be adjusted yearly in an amount equal to the average increase that is secured for the members of the National Union. The adjustment shall be based on the average increase secured for the membership in the preceding year. The salaries of the National Executive Vice President, the National Vice President and the National Secretary-Treasurer shall be the same. In addition to hotels and meals, the National Union will pay for traveling and other necessary expenses. Due

to the many and varied duties required of the National Officers, all actual expenses incurred by the National Officers in the course of performing their duties will be paid.

Section 2. The National Executive Board shall approve the salaries of all organizers, representatives, and other employees, except those officers whose salaries are provided for in this Article, and the expenses to be paid to all employees. In no event shall their salary be fixed at a higher rate than any National Officer's salary.

ARTICLE VI

Finances

Section 1. Each local union shall pay the National Union on or before the 15th of each month, for the preceding month, twenty-one dollars and thirty-one cents (\$21.31) per member from whom dues are collected; two dollars and sixteen cents (\$2.16) of this amount to be transferred to the Special Defense and Organizing Fund. Beginning with the per capita adjustment on January 1, 1984, and each year thereafter, 10% of the per capita adjustment will likewise be transferred to the Special Defense and Organizing Fund.

Section 1a. The amount of adjusted dues and per capita shall be in addition to the then current dues of the local union and the per capita as set forth in Article VI, Section 1, of the National Constitution. Base average dues (presently \$70.79) shall increase to \$72.75 as of January 1, 2016, and shall be used as a starting point for calculating the annual mandatory dues increase. This mandatory annual dues increase shall be based on the average wage increase that is secured for the members of the Union in the preceding year. (Article VI, Section 1, and Article VI, Section 1a, will be corrected after each adjustment to reflect the current base dues and per capita for the year involved.) Fifty percent (50%) of these adjustments will be forwarded to the National Union as per capita.

Nothing in this requirement for annual adjustments would (a) compel a local union to establish a base average dues, (b)

prohibit a local union from establishing a base average dues, (c) prohibit a local union from increasing its existing dues, or (d) prohibit a local union from decreasing its existing dues.

Section 1b. The Special Defense and Organizing Fund is for the purposes of: (i) support for contract campaigns and other collective actions to protect our members; (ii) legal defense; (iii) assistance in strikes and other economic actions involving employers; (iv) support for organizing campaigns; (v) support for addressing issues involving deregulation, restructuring and divestiture in the electric, gas, water and related industries.

Payments from this fund to locals involved in economic actions shall be paid weekly at a rate to be determined by the Executive Board, beginning with the third week of the strike or economic action. This fund shall maintain a minimum sufficient to guarantee any qualified local union at least one week's payment in accordance with the aforementioned rules; also, each eligible local union shall be guaranteed successive or continuing payments (if eligible), not to exceed its unused accumulation. No strike benefits will be authorized when this fund is at or below a required minimum except for the special purposes enumerated above.

Payments for organizing and deregulation related costs will not be authorized from this fund at any time when the balance is at or below two (2) million dollars.

Section 1c. A local which represents a bargaining unit or a division with such low compensation that the payment of full dues and per capita severely impacts the members' standard of living, may petition the National Executive Board to apply Article VI, Section 11 to such bargaining unit or division. Upon approval by the National Executive Board, such bargaining unit or division will be governed by the provisions of Article VI, Section 11.

Section 1d. Upon approval of the Executive Board of the National Union, the monthly per capita may be reduced for members of a local union, chartered by the National Union, that has not achieved majority status in a bargaining unit, while the

union continues its efforts to reorganize a majority of the unit.

Section 2. Each local union shall pay to the National Union one-half of each new member's initiation fee, up to a maximum payment to the National Union of fifty dollars (\$50.00); also on the same basis, one-half of each reinstatement fee collected.

Section 3. New members shall be required to pay an initiation fee of not less than two dollars (\$2.00) or more than fifty dollars (\$50.00), excepting that this maximum shall not affect any local union which has established other maximums with the approval of the National Executive Board. Initiation fee shall be waived for ex-service personnel if they apply for membership within one (1) year from the date of discharge from military service.

Section 4. Local unions may establish monthly dues in any amount sufficient to adequately and efficiently operate their local union. No local union shall levy an assessment on its members without prior approval of the National Executive Committee.

Section 5. The National Executive Board may exonerate any local union from the payment of per capita to the National Union for any month or months for the members in good standing of such local union, who are unemployed due to strike, lockout, or other involuntary cause, or who are serving in the armed forces of the United States.

The National Executive Board shall waive per capita for local unions and for groups of members for the period of negotiations of a first contract; said members shall be considered members in good standing. Local unions may waive local dues for those members for the period of negotiations of a first contract; said members shall be considered members in good standing.

Section 6. No applicant for membership shall be regarded as being a member in good standing until the full amount of his/her initiation fee has been paid, excepting as heretofore provided in Article VI, Section 3.

Section 7. Any member in arrears for three months in regard to dues, will be designated as delinquent and not in good standing, unless officially exonerated from payment of same,

and shall be required to pay a reinstatement fee imposed by the local union in addition to all back dues before good standing can be restored.

Section 8. The appropriate financial officers of any local union shall deposit, in an insured account in a financial institution, the full amount of all dues and initiation fees, as well as other income, collected by any local union. This account shall be in the name of the local union, and shall not be in the name of any officer. Activity on account(s) must be made only by the appropriate financial officers. Withdrawals or transfers from local union accounts must be by check, countersigned by at least two designated, authorized officers. The National Secretary-Treasurer may modify these provisions for any local union upon a showing, in writing, that this provision would cause a hardship or make operation of the local cumbersome.

Section 9. The accredited officers of each local union shall forward to the National Secretary-Treasurer of the Utility Workers Union of America, by the 15th of each month, the per capita due the National Union from initiation fees and dues, collected during the preceding month. A local union in arrears for two months with its per capita payments, unless officially exonerated from payment of same, shall be considered delinquent.

Section 10. When any local union fails to report and remit to the National Secretary-Treasurer of the National Union, in regard to initiation fees and dues, as provided for herein, said National Secretary-Treasurer shall notify in writing the local union's President, the Recording Secretary, and Financial Secretary of the fact. Failing to receive a satisfactory response within ten days after the notification, the National Secretary-Treasurer shall try to ascertain the reasons for non-payment. If non-payment results from financial inadequacy, the National Secretary-Treasurer shall develop a program, subject to approval of the National Executive Board, to restore financial stability to the local union including a means for the repayment of the back dues and initiation fees, and including necessary changes in the financial operations of the local union. The Executive Committee shall

determine the course of action to be taken when the failure to remit initiation fees and dues is willful or defiant.

Section 11. For a newly organized member bargaining unit or division whose compensation is determined by the National Executive Board to be significantly less than the compensation of the general membership, the National Executive Board will determine the initial monthly per capita dues and the base average dues which will be used as the starting point for calculating the annual mandatory dues increase applicable to such member bargaining unit or division. When it is determined by the National Executive Board that the compensation of such member bargaining unit or division is comparable to the compensation of the general membership, the member bargaining unit or division will be governed by Article VI, Sections 1 and 1a for the purposes of the annual mandatory dues increase.

Section 12. Local unions placed on the delinquent list shall not be reinstated until they have filed all delinquent reports, paid all arrearages and a fine of two dollars (\$2.00) for each one hundred (100) members or fraction thereof, unless exonerated from payment of such fines by the National Executive Board.

Section 13. All local union officers entrusted with the finances of the organization shall be bonded in accordance with the provisions of the Labor-Management Reporting and Disclosure Act of 1959. The bond shall be secured and approved by the National Secretary-Treasurer of the National Union.

A local union or a council whose yearly income is under \$200,000 and whose financial accounts are not annually audited by an independent public accountant shall establish an auditing committee either by election by the membership, or by appointment by the local's or council's President with ratification by the membership. This committee shall be composed of from 3 to 5 members,

Section 1. In the event the National President shall have reason to believe that any local union or member thereof is failing to comply with any provision of the National Constitution, he/she may institute proceedings upon the alleged violations with due notice of hearing before the National Executive Board. Upon the basis of the hearing the National Executive Board is authorized to render a decision, dismissing the charges of alleged violations, suspending or revoking the charter of any such local union, suspending or expelling any member thereof, or directing such other action as may be necessary to secure compliance with the National Constitution. However, at the hearing before the National Executive Board, the National President, having instituted such proceedings, shall not participate as a member of the trial body or in the decision, but may offer evidence in support of the charges. The members of the local union whose charter was revoked may be readmitted only by action of the National Executive Board.

ARTICLE IX

Section 1. No strike shall be called by any local union until the National Office is notified and the National President has given his/her sanction. Local union officers, before requesting strike approval from the National President, are required to have membership approval of such strike action. Membership approval of strike authority may be taken prior to such negotiations. On being notified of a desire to strike, the National President or his/her representative shall immediately attempt to adjust the dispute between the company and the local union, and shall give further recommendation on procedure.

Section 1a. It shall be a violation of this National Constitution, subject to the provisions of Article VIII hereof, for any local union officer or member to cross, or advocate crossing, a duly authorized picket line established in accordance with the provisions of this article.

ARTICLE XIV

Member Charges, Complaints and Challenges Local Union / Regional Boards / Joint Council Charges, Complaints and Trials

Recognizing that charges may be filed by a member in good standing against another member, the following shall apply in order to insure that all charges are duly considered and addressed under a procedure that is fair and equitable.

Procedures for charges and trials should be designated in the bylaws of the local unions. When the bylaws of a local union are silent in whole or in part, the following procedures will govern. Regional boards and/or joint councils will hereinafter be referred to as local union and members hereinafter referred to will apply to members of those boards or councils.

Section 1-A. Any member(s) may prefer charges against a member(s) of a local union by filing such charge(s) with the local union of which the charged party is a member. These charges must be signed by the person(s) making the charge(s) and must set forth the specific violation(s) or wrong(s) charged and the date on which it allegedly occurred. Charge(s) must contain a brief statement of the facts upon which the charges are based and must be sufficiently specific to permit the charged party to prepare a proper defense.

Section 2-A. Charges must be filed within sixty (60) days of the time the complainant becomes aware, or reasonably should have become aware, of the alleged offense. The term “day(s)” as used in this Article shall be calendar days unless otherwise noted.

Section 3-A. A written copy of the charges must be forwarded to the charged party, to his/her last known address, by certified mail within seven days after the charges have been filed.

Section 4-A. A Trial Committee shall be designated in the manner specified in the bylaws of the local union. If the bylaws of the local union do not provide for a Trial Committee, then:

- (a) The local union officers should designate the Trial Committee which may not consist of less than three members in good standing.
- (b) If the accused member is an officer of the local union he/she shall not participate in the designation of the Trial Committee.
- (c) Neither the person that filed the charges nor the person accused may be a member of the Trial Committee.

Section 5-A. The complainant and the charged party shall promptly be notified of the members appointed to the Trial Committee. The complainant also shall be notified to forward immediately to the Trial Committee any evidence, including written statements and exhibits, that they have supporting the charges. If any member appointed to the Trial Committee is unable to serve, the President shall appoint another member to serve on the Trial Committee.

Section 6-A. The Trial Committee shall convene and shall choose its own chair, who shall have full voting rights. It first shall review the charges. If the Trial Committee determines that the charges, in whole or in part, have not been properly or timely filed, do not state an offense for which a member may be charged, or have not been supported by the evidence provided by the complainant, it shall render a report dismissing those portions of the charges. If all charges are dismissed, the report of the Trial Committee shall be submitted to the next regular membership meeting or special meeting called in accordance with the local union's bylaws. If only a portion of the charges are dismissed, then the report dismissing the charges shall be presented, along with the report on the charges heard and decided, at the regular membership meeting or special meeting, following the trial, called in accordance with the local union's bylaws.

Section 7-A. If the Trial Committee, upon examining the evidence provided by the complainant, finds there is sufficient evidence to warrant a trial on some or all of the charges, the complainant and charged party shall be notified by certified mail when a formal hearing will take place before the Trial Commit-

tee. Formal hearings shall take place as soon as reasonably possible, but no earlier than thirty (30) days from the date of the certified notice of hearing so that both parties can adequately prepare for the trial. The Trial Committee may in its sole discretion grant a reasonable delay to the charged party or complainant when it feels the facts or circumstances warrant such action.

Section 8-A. Only members of the Utility Workers Union of America may attend the proceedings of the Trial Committee.

Section 9-A. The charged party may act as his/her own representative or may choose to be represented by one (1) member in good standing of the Utility Workers Union of America.

Section 10-A. If the charged party deliberately absents himself/herself from a scheduled hearing without being excused by the Trial Committee, the Trial Committee may proceed as if they were present. If the complainant deliberately absents himself/herself from a scheduled hearing without being excused by the Trial Committee, the Trial Committee shall forthwith dismiss the charges.

Section 11-A. The complainant and the charged party shall have a fair and impartial hearing and shall have the right to make an opening statement, to be present throughout the hearing, to offer witnesses and evidence, to confront and cross examine witnesses, and to make a closing statement. The complainant shall proceed first and shall have the burden of proving the charges by a preponderance of the evidence. There shall be a presumption of innocence in favor of the charged party.

Section 12-A. All questions of order, procedure, and admissibility of evidence shall be decided by the Trial Committee and shall be final.

Section 13-A. All Trial Committee members are expected to be present at all hearings. Notwithstanding the above, the Trial Committee may meet and conduct hearings and other business, deliberate, and issue its final report, if a majority of its members are present.

Section 14-A. Any properly selected member of the Trial Committee may continue to serve as a member of that committee

until the conclusion of its proceedings, so long as they remain a member in good standing of the Utility Workers Union of America. If a member of the Trial Committee retires after the hearing but before the report and decision is completed, he/she shall continue to serve until after the report and decision are issued. Otherwise, the Trial Committee shall continue any proceedings on the pending charges as long as there are at least three (3) members on the Trial Committee.

Section 15-A. Within thirty (30) days of the conclusion of the hearings, the Trial Committee shall prepare a written report and submit it to the next membership meeting, or special meeting, with its recommendations on the guilt or innocence of the accused on each charge and its recommendations for penalties, if any. The complainant and the charged party shall receive a copy of the report by certified mail prior to the date of the meeting. At the meeting any member in good standing will be permitted to speak in accordance with the parliamentary procedure outlined in the local union bylaws or *Robert's Rules of Order (Newly Revised)* if unspecified. The charged party and complainant shall be accorded full opportunity to present their position on all matters bearing upon the trial and the report and recommendation of the Trial Committee.

Section 16-A. The report and recommendations of the Trial Committee on each charge shall become effective only upon approval by a majority vote of the members voting at the meeting. If the report and recommendation of the Trial Committee on a charge is rejected, no further action will be taken on that charge during that meeting.

Section 17-A. A report of the members' decision, including the report and recommendations of the Trial Committee, shall be forwarded immediately by certified mail to the charged party, the complainant and the National Office.

Section 18-A. The following procedure shall apply if an appeal is filed from either: (1) a final decision of a local union on charges against a member of a local union; or (2) a final decision of a local union on a matter in which the local union's decision

adversely affects a member's rights or interests:

- (a) The complainant or the charged party or the aggrieved member may appeal from the decision of the local union within thirty (30) days of the mailing of the local union's decision by sending the appeal in writing, certified mail, to the Secretary-Treasurer at the National Office.
- (b) The party filing the appeal shall set forth the specific reasons for the appeal, and shall provide a statement of the facts upon which the appeal is based, including all evidence to support the appeal. This information required for consideration of the appeal must be sufficiently specific to permit the National Union to fully consider the appeal.
- (c) The National Union shall notify the prevailing party and the Trial Committee that an appeal was filed. The prevailing party, and the Trial Committee if it so desires, can also send any further information that they believe should be considered no later than thirty (30) days from the date of the notice of appeal.
- (d) The National President, subject to the approval of the Executive Committee, may make an administrative decision on the appeal after receipt of all information pursuant to the above-stated procedure.
- (e) If he/she does not reach an administrative decision, he/she may assign an Appeal Committee comprised of no fewer than three (3) and no more than five (5) National Executive Board members to review the appeal and make a recommendation to the National Executive Board regarding the appeal. The Appeal Committee has the authority to determine whether to decide the appeal on the information received, to hold an appeal hearing, or to order a new trial.
- (f) If a new trial is ordered, the Appeal Committee will recommend to the National Executive Board whether the trial should be held before the Appeal Committee or sent back to the local union.

- (g) The Appeal Committee shall issue a report including its findings and recommendations at the conclusion of its deliberations on the appeal.
- (h) The National Executive Board shall decide the appeal after full consideration of the report of the Appeal Committee. The decision of the National Executive Board shall be sent by certified mail to the complainant, the charged party, and the local union.
- (i) Unless the National Union grants a stay, the decision of the local union shall be in full force and effect.

Section 19-A. An appeal from the decision of the National President (affirmed by the National Executive Committee) or the National Executive Board may be made in writing to the National Secretary-Treasurer no less than thirty (30) days and no more than sixty (60) days prior to the convening of the National Convention.

Section 20-A. Subject to applicable laws, a member who has been aggrieved by a decision or ruling of a local union or the National Union must exhaust all available appeal procedures prior to initiating any action in a court, tribunal or agency.

National Executive Board Charges and Trials

Charges against any officer(s) or member(s) of the National Executive Board for any offense against the National Union must be proffered in writing, signed by four or more members of the National Executive Board, or by at least ten (10) local unions that constitute at least 20% of the membership of the Utility Workers Union of America and must set forth the specific acts upon which the charges are based. In the event such charges are filed, or if any National Officer shall be derelict in the performance of his/her duties or commit any dishonest or disreputable act, the National President may at his/her discretion suspend without pay any such National Officer, subject to review by the National Executive Board and upon appeal to the National Convention, but such decision shall stand pending such review. If such action is finally reversed, the charged party shall

be made whole for any losses suffered.

The National Executive Board shall designate or constitute itself a Trial Committee except that any member involved as defendant or accuser shall be disqualified from sitting on the Trial Committee. At the trial both parties shall be entitled to be represented by counsel. If the defendant shall fail to appear at the time and place designated for the trial without presenting a sufficient reason for his/her absence, the Trial Committee shall proceed to take testimony and make decisions in the same manner as if the defendant was present.

Section 1-B. An appeal from the decision of the National Executive Board may be made to the next National Convention by giving notice to the National Secretary-Treasurer no less than thirty (30) days and no more than sixty (60) days prior to the convening of the National Convention.

Section 2-B. The National President may extend the time for filing any appeal if in his/her opinion justice will be served thereby.

Section 3-B. In no case shall a member or subordinate body appeal to a Civil Court for redress until they have exhausted their rights of appeal under the Constitution of the National Union.

Election Challenges

Section 1-C. All challenges to election results for officers, delegates and representatives, must be made in writing to the local union within 15 days of the time the challenger becomes aware, or reasonably should have become aware, there have been violations of the election procedures of the local bylaws or the Labor-Management Reporting and Disclosure Act of 1959 as amended, which would have affected the outcome of the election. The challenge(s) must be signed by the person(s) proffering the challenge(s) and must set forth the specific violation(s) or wrong(s) and the date on which they allegedly occurred. Any challenge(s) must contain a brief statement of the facts upon which the challenge(s) is based and must be sufficiently specific to permit an adequate investigation into the matter.

Section 2-C. An Investigative Committee shall be designated in a manner specified in the local bylaws. If the bylaws do not provide for an investigation committee, then:

- (a) The Executive Board of the local union shall designate an Investigative Committee, and if the officer challenged is a member of the Executive Board, that member shall not participate in the selection.
- (b) Neither the member whose election has been challenged nor the individual(s) challenging the outcome of the election shall serve on the Investigative Committee.

Section 3-C. Within seven (7) days after the challenge(s) has been filed, a copy of the challenge(s) to the election results shall be forwarded to the member being challenged, to the member's last known address by certified mail. The Investigative Committee shall convene and shall choose its own chairman, who shall have full voting rights. It first shall review the challenge(s).

- (a) If the Investigative Committee determines that the challenge(s), in whole or in part, have not been properly or timely filed, do not state an offense for which an election may be challenged, or have not been supported by the evidence provided by the complainant, it shall render a report and recommendation to the local union's Executive Board as outlined in subsection (5) recommending dismissal of those portions of the challenge(s).
- (b) If the Investigative Committee, upon examining the evidence provided by the complainant concerning the remaining portion of the challenge(s), finds there is sufficient evidence to warrant a hearing, the complainant and challenged party shall be notified by certified mail with a written notification of the time and place the Investigative Committee will hold a hearing on the matter. The hearing shall take place not less than one week or no more than twenty-one (21) days from the date of the mailing of the challenges to the member whose election was challenged.

Section 4-C. Upon completion of the hearing, the Investiga-

tive Committee shall submit its report and recommendations to the next meeting of the local union's Executive Board, listing each of the claimed violations of voting procedures and its findings regarding each claimed violation of the voting procedures. The Investigative Committee shall also ascertain whether or not the claimed violations would have affected the outcome of the election and set forth its reasoning for the conclusion reached.

Section 5-C. The local union's Executive Board shall have the right to (1) order a new election; (2) certify the election of all positions involved; (3) certify all positions not affected by the challenge; or (4) refer the matter to a regular or special membership meeting within thirty (30) days for a decision, or (5) otherwise remedy the election violation. A copy of the local union's Executive Board decision shall be forwarded immediately to the challenged and the challenger, with a copy to the office of the National Union.

Section 6-C. If the local union's Executive Board refers the matter to the membership for a decision, the membership may, after receiving the report of the Investigative Committee (1) order a new election; (2) certify the results of the election; (3) certify the election of all positions not challenged or those for which the outcome would not have been affected by the challenge; or (4) otherwise remedy the election violation. A copy of the membership's decision shall be forwarded immediately to the challenged, the challenger and the National Office.

Section 7-C. An appeal from the decision of the local union's Executive Board (other than referral to the membership for decision) or from the decision of the local union's membership may be filed with the National Union Executive Committee by either the challenger or the challenged, within thirty (30) days of the mailing of the decision.

Section 8-C. Within thirty (30) days of the receipt of the appeal from the decision of the local union, the National Union's Executive Committee will review the written challenge, the local Investigative Committee Report, the decision of the local union's Executive Board and/or the decision of the local union.

Section 9-C. The Executive Committee will have the authority to:

- (a) order a new election;
- (b) certify the results of the election;
- (c) certify all positions not involved in the claimed violations and those elections where the outcome would not have been affected by the violations and order a new election only for the positions, the outcome of which would have been affected by the violations.

Section 10-C. Elections challenged by a member will be presumed valid pending a final decision on the claimed violations and their effect on the outcome.

ARTICLE XV

Conventions

Section 1. The regular National Convention shall be held subsequent to the National Convention in June, 1979 at four (4) year intervals during the month of June, of such dates and at such places as may be designated by the National Executive Board; provided that the date of such National Convention may be advanced or postponed to the two (2) months preceding or two (2) months subsequent to the month of June by resolution of the National Executive Board.

Section 2. The Call for each regular National Convention shall be mailed by the National Secretary-Treasurer at least seventy (70) days prior to the convening of the National Convention.

Section 3. Representation shall be based upon the average of the membership of the local union both paid and for whom per capita payments have been duly waived or excused for the last four (4) months preceding the month in which the National Convention is held. Such membership shall be based upon the records of the National Secretary-Treasurer. A local union that has been chartered less than four (4) months preceding the month in which the National Convention is held shall be entitled to send delegates based on the average number of paid up members in the months said local union held the charter.

Section 4. Voting at National Conventions shall be based on per capita membership.

Each local shall be entitled to elect by secret ballot, one delegate for the first 100 members or less in good standing and shall be entitled, after election by secret ballot, to send delegates for each additional 100 members or fraction thereof. However, except as provided in Article XV, Section 4a, no one delegate shall be permitted to represent more than 1,000 members. For local unions having large memberships, it is required that they elect by secret ballot enough delegates to adequately vote their full per capita membership. Any affiliate local union may elect by secret ballot alternate delegates to a National Convention, but said alternates shall only serve as delegates in the event of the inability of a delegate or delegates to attend the National Convention and serve.

Section 4a. In the event a local union is engaged in a duly authorized strike or lockout which prevents it from sending its entire delegation to a National Convention, the local union shall be entitled to have one or more of its delegates, previously elected by secret ballot, vote the total per capita of the local union after having provided evidence to satisfy the Credentials Committee that he/she has been properly authorized by the local union.

Section 5. Local unions within a reasonable radius of one another in the same region may combine and elect delegates to represent them, but no delegate so elected shall be entitled to represent more than 1,000 votes in the National Convention. Joint councils chartered by the National Union and composed of local unions of the National Union, may elect a delegate to the National Convention—such delegate shall be seated with all rights and privileges but shall not be entitled to vote unless carrying credentials of a local union.

Section 6. No local union shall be entitled to representation at the National Convention unless the Financial Officer has paid the National Secretary-Treasurer all dues and initiation fees, etc., that are due to the National Union.

Section 7. Any local union becoming delinquent must com-

ply with Article VI, Section 12, and be in good standing for four (4) months previous to the month in which the National Convention is held, before it will be entitled to representation.

Section 8. No member shall be eligible to be a delegate to a National Convention unless (a) he/she shall have been in continuous good standing for a period of twelve (12) months prior to the National Convention; or (b) if his/her local union has been in existence for less than twelve (12) months prior to the National Convention, he/she must have been in continuous good standing for a period of four (4) months prior to the National Convention; or if his/her local union has been in existence less than four (4) months, he/she must be in good standing for all the months said local held its charter, before he/she will be eligible to be a National Convention Delegate; and is employed in a plant, shop, office, or any other place within the jurisdiction of the National Union, or is one of the staff representatives of the National Union, or an officer, employee, or representative of a local union. The National Officers and the members of the National Executive Board shall be ex-officio delegates to all National Conventions, and shall be seated at the National Convention with all rights and privileges of delegates, but without vote, except that the National President shall have the right to vote in the event of a tie.

Section 9. Upon certification by the President and Secretary of a local union, with the local union's seal attached, of all delegates properly elected to the National Convention, the National Secretary-Treasurer shall send to each delegate at his/her home address an original copy of the delegate's credential signed by the National President and National Secretary-Treasurer with the National Seal affixed. The duplicate shall be retained by the National Secretary-Treasurer to be turned over to the Credentials Committee prior to the opening of the National Convention. All delegates shall present their credentials to the Credentials Committee prior to the first session of the National Convention. The notification letter containing the names of the delegates properly elected by each local union must be received by the National

Secretary-Treasurer not later than twenty-five (25) days prior to the opening of the National Convention.

Section 10. Delegates to the National Convention shall be elected by secret ballot of the local union after the Call for the National Convention is received and has been read to the local union. The local union officers shall issue a notice, in accordance with the provisions of the Labor-Management Reporting and Disclosure Act of 1959, as amended, stating those delegates will be elected by secret ballot. Delegates must receive a plurality vote of the members voting. Notwithstanding the above, if a local's bylaws provide that any of its officers shall also serve as National Convention Delegates, then such officers, when elected to office, shall also be elected as delegate to the National Union Convention and, in accordance with the Labor Management Reporting and Disclosure Act of 1959, as amended, the nomination and election process for officer, including the notice of nominations and election and the voting ballots, shall include "UWUA National Convention Delegate." Additional delegates and alternates shall be nominated and elected in the manner prescribed in the National Constitution.

Section 11. When any delegate's credentials are to be contested, notice of such contest shall be sent to the National Secretary-Treasurer not later than five (5) days prior to the date for convening the National Convention.

Section 12. All proposed Constitutional amendments and resolutions to be considered by the National Convention shall emanate from:

- (a) a duly constituted local membership or local union Executive Board meeting,
- (b) an authorized National Union council,
- (c) the National Executive Committee and/or the National Executive Board,

and shall be sent to the National Secretary-Treasurer. Amendments must be received no later than thirty (30) days and resolutions no later than ten (10) days prior to the convening of the National Convention. The National Secretary-Treasurer shall

submit all proposed amendments to the National Constitution and all resolutions so received to the chairpersons of the appropriate committees. Time limits may be waived by the National Executive Committee for good cause.
